INDEX TO VOLUME 14

A

Abnormality, congenital, of aorta, constricting double arch of, in infancy, 527
of heart: mental retardation associated with, 21
of intestine in infant, 115

Acrodynia, treated with intramuscular injections of vitamin B_1, 74

Adolescence, period of, 276 (book review)

Agranulocytosis, experimental, 116

Aikman, John, 113

Air, mold spore content of, in Boston, 234

Allen, Willard M., 115

Allergic diseases, 92 (critical review)

American Academy of Pediatrics, eighth annual meeting, 118, 255, 385, 395, 534, 832
executive board's meeting, 251
news, 134, 274, 414, 556, 693
Region I meeting, 105
state chairmen's meeting, Region III, 117

Amyotonia congenita, three cases of, 114

Anderson, W. A. D., 375

Androgen, treatment of cryptorchidism with, 452

Anemia, Cooley's, 349
erythroblastic, in adolescent, 349
Mediterranean, 349
of rheumatic fever, 66
sickle-cell, cerebral vascular lesions accompanying, 745

Angioma, congenital, diagnosis and treatment, 671

Antigen, undenatured bacterial, comparison of phase I, *H. pertussis* vaccine with, 25

Antitoxin, staphylococcal, case of severe staphylococcal infection treated with, 114

Aorta, congenital abnormality of, constricting double arch of, in infancy, 527

Arena, J. M., 745

Artery, pulmonary, in Ayerza's disease, 602

Ascorbic acid (*see* Vitamin C)

Asthma, infectional, treatment of, in children, with filtrate of cultures of upper respiratory pathogenic bacteria, 307

Atropine intoxication, 755

Ayerza's disease (*see* Artery, pulmonary)

B

B. alkalescens in stool of normal infant, 341

Baker, Charles J., 183

Bakwin, Harry, 1

— and Jacobziner, H., 730

Barbour, G. M., Carpenter, C. M., and Hawley, P. L., 116

Basman, Jack, and Zentay, P. J., 323

Baum, W. S., and McCoord, A. B., 110

Berkley, Hugh K., 79

Bernstein, Samuel S., Williams, H. H., Hummel, F. C., Shepherd, M. L., and Erickson, B. N., 570

Bile duct, common, idiopathic dilatation of, in childhood, 79

Biophotometer, visual adaptation as tested with, and vitamin A content of blood, 110

Birth, blood studies of vitamin C during pregnancy, and early infancy, 447

Birthmark (*see* Tumors, angioma)

Black, William C., 761

Blatt, Maurice L., and Wolf, A. A., 695

Blood collections, needle guide and apparatus for, 383
fats of, increased essential, metabolic observations on child with, 570
parental whole, treatment of measles with, 502
pressure, determination of, in children, 148
vessels, cerebral, lesions of, accompanying sickle-cell anemia, 745

Body mechanics, teaching of, in pediatric practice, 832 (round table discussion)

Book reviews, 276, 415, 558

Boston, air of, mold spore content of, 234

Bradford, W. L., and Wold, M., 114
Breese, B. B., 110
Bronchiectasis, acute, abscess from, simulating empyema, 661
tuberculous atelectatic, 368
Bronchiolectasis, congenital familial steatorrhea with fibromatosis of pancreas and, 462
Bronchography in children, 780
Bronstein, I. P., 203
Burgess, Ernest, Durand, J. I., and Spickard, V. W., 74
Bush, Fred W., 113
Butter fat, oils as substitutes for, in infant feeding, 290

C

Calcification, renal, in infancy and childhood, 375
Carcinoma, congenital, of thymus with extensive generalized metastases, 798
primary, of liver, in six-year-old girl, 113
Card, Thomas A., 658
Caries, dental, significance of, as an indication of nutritional adjustment, 118 (round table discussion)
Carnes, Moses, Kanof, A., and Kramer, B., 712
Carpenter, C. M., Barbour, G. M., and Hawley, P. L., 116
Catheter, buccal oxygen-ether, 807
Celiac disease, congenital familial, with fibromatosis of pancreas and bronchiolectasis, 462
vitamin absorption tests in, and nonceliac disease, 110
Cerebral sclerosis, familial (Pelizaeus-Merzbacher type), 113
Child, Weil's disease occurring in, 48
Childhood, idiopathic dilatation of common bile duct in, 79
kidney, calcification of, in infancy and, 375
Children, adolescent, 276 (book review)
asthma, infectional, treatment of, in, with filtrates of cultures of upper respiratory pathogenic bacteria, 307
blood pressure, determination in, 148
bronchography in, 780
disorders of gonad function in, 242
empyema in, 11
encephalitis, epidemic type B in, 323
hypergenitalism in, 203
prognosis of chronic glomerular nephritis in, 111
repeated glucose tolerance tests in, 737
Children—Cont'd
tuberculosis in, 815 (critical review)
tularemia in, 358
tumors, neurogenic, of sympathetic nervous system in, 137
Christie, Amos U., Dunham, E. C., and Jenss, R. M., 156
Circulation, moving picture demonstration of, within mesentery of rabbit, 115
Clausen, S. W., 110
Clifford, Stewart H., 333
Cohen, Robert, 383, 807
Comments, 136, 416
Convulsions, factors influencing relation of, and hyperthermia, 190
Correspondence, 691
Critical review:
allergic diseases, 92
disorder of gonad function in children, 242
modifiability of growth by administration of endocrine substances, 684
tuberculosis in children, 815
Crook, Grace W., Winters, M., and Tompkins, C. A., 788
Cryptorchidism, treatment of, with gonadotropic substance, 452

D

Davison, Wilburt C., 810
Day, Richard, 148
Deaf, congenitally, phenylketonuria and, 348
Dermatorrhexis (Ehlers-Danlos syndrome), 632
Development, child, biographies of, 558 (book review)
consideration of race and sex in relation to growth and, of infants, 156
precocious somatic and sexual, in infant, 113
Diarrhea, epidemic, in newborn, 183
Dunham, Ethel C., Jenss, R. M., and Christie, A. U., 156
Duodenitis, acute infectious, 213
Durand, Jay I., Spickard, V. W., and Burgess, E., 74
Dysentery, bacillary, treatment of, in infants and children, with pectin-agar diet, 788

E

Ehlers-Danlos syndrome (*see* Skin, abnormalities)
Emphysema, subcutaneous, in newborn infant, 805

Empyema, acute bronchiectatic abscesses simulating, 661
in children, 11
Encephalitis, type B epidemic, in children, 323
Epstein, J. W., and Wasserman, P., 798
Erickson, Betty Nims, Bernstein, S. S., Williams, H. H., Hummel, E. C., and Shepherd, M. L., 570

F

Fever, vitamin A content of blood in, 110
Field, Elsie H., and Gillespie, J. B., 363
Fischer, Alfred E., Kohn, J. L., and Resch, H. V., 502
Fluoroscopy, device to aid in, of infant, 382
Fries, Joseph Harman, 382
Frontali, G., 290
Fulton, Robert P., Toomey, J. A., and Rea, F. W., 372
Fungi, spores of, content of air in Boston, 234

G

Gachet, Frederick S., 111
Geib, Fred W., 116
Gerbasi, Michael J., 113
Gerber, Alexander, and Stein, J. L., 89
Gershon-Cohen, J., Thalheimer, E. J., and Mezzetti, A., 349
Gillespie, James B., and Field, E. H., 363
Girls, adolescent, physical strength of, 610
Glaser, Jerome, 114
Glucose tolerance, repeated tests for, in children, 737
Gonad, function of, disorders of, in children, 242
Gonadotropic substance (*see* Androgen)
Greenwald, Harry M., and Wasch, M. G., 57
"Growing pains," nonrheumatic, differential diagnosis of, and subacute rheumatic fever, 315
Growth, consideration of race and sex in relation to, and development of infant, 156
modifiability of, by administration of endocrine substances, 684 (critical review)
Grulee, Clifford G., Sanford, H. N., and Lewison, M., 725
Guillain-Barré syndrome, 363

H

H. pertussis, experimental infection in mouse produced by intranasal inoculation with, 114
Hahn, Paul F., 112
Hamilton, Bengt, 517
Hamilton, Paul M., and Togasaki, Y., 655
Harvey, Roger, and Warren, S. L., 115
Hawley, Estelle, and Kaiser, A. D., 116
Hawley, P. L., Carpenter, C. M., and Barbour, G. M., 116
Head injuries in children, 116
Heart disease, congenital, mental retardations associated with, 21
Hemangioma, congenital, in infancy, diagnosis and treatment, 115
Hematoma, calcified, 522
Hemorrhagic disease of newborn (*see* Infant, newborn, hemorrhage in)
Heredity, role of, in stuttering, 642
Hill, Lee Forest, and Kelly, D. H., 815
Hodes, Horace L., Stifler, W. C., Jr., Walker, E., McCarty, M., and Shirley, R. G., 417
Howard, P. J., 220
Hubbard, John P., and McKee, M. H., 66
Hummel, Francis C., Bernstein, S. S., Williams, H. H., Shepherd, M. L., and Erickson, B. N., 570
Hurwitz, Samuel, and Stephens, H. B., 11
Hyland, Clarence M., 255
Hypergenitalism in children, 203
Hyperlipemia, essential, 570
Hyperthermia, factors influencing relation of convulsions and, 190
Hypoparathyroidism, physiologic, and tetany in newborn, 1

I

Infancy, early, blood studies of vitamin C during pregnancy, birth and, 447
kidney, calcification of, in childhood and, 375
syndrome of constricting double aortic arch in, 527
Infant, feeding of, oils as substitutes for butter fat in, 290
fluoroscopy of, device to aid in, 382
food for, irradiated evaporated milk as, 725
growth and development of, consideration of race and sex in relation to, 156

Infant—Cont'd
newborn, epidemic diarrhea in, 183
hemorrhage in, 333
sepsis of, 695
subcutaneous emphysema in, 805
tetany in, relation to physiologic hypoparathyroidism, 1
normal, *B. alkalescens* in stools of, 341
prevention of purulent otitis media in, 730

Ingalls, Theodore Hunt, 593

Inoculation, intranasal, experimental infection in mouse produced by, with *H. pertussis*, 114

Iron, absorption and excretion of, in normal and anemic dogs under experimental conditions, 112

J

Jackson, S. H., and Snelling, C. E., 447

Jacobziner, Harold, and Bakwin, H., 730

Jaundice, infectious, 213
spirochetal, occurring in child, 48

Jenss, Rachel M., Dunham, E. C., and Christie, A. U., 156

John, Henry J., 737

Jones, T. Banford, 115

McDonald, J. J., and Sauer, L. W., 304

McKee, Margaret Harper, and Hubbard, J. P., 66

McMann, Walter, and Purcell, C. W., 805

Measles, early, treatment of, with parental whole blood, 592
pneumonia, pneumococcic, associated with, use of sulfapyridine in primary pneumococcic pneumonia and in, 417

Medicine in modern society, 558 (book review)

Meningitis, meningococcic, serum treatment of, 83
tuberculous, tryptophan bodies in, 372

Menstrual difficulties, early adolescent, 115

Mental tests, retardation associated with congenital heart disease, 21

Merksamer, David, and Kramer, B., 51

Mezzetti, Alfred, Thalheimer, E. J., and Gershon-Cohen, J., 349

Mider, G., Burroughs, and Morton, J. J., 112

Milk, irradiated evaporated, as food for infants, 725

Mold (*see* Fungi)

Morton, Henry G., 755

Morton, John J., and Mider, G. B., 112

N

Needle, guide for, and blood collection apparatus, 383

Nelson, Richard L., 39

Nelson, Severina E., 642

Nephritis, chronic, prognosis of, value of urea clearance tests in, 111
glomerular, chronic, prognosis of, in children, 111
Nerves (Guillain-Barré syndrome), acute polyneuritis of uncertain origin, 363
Neuritis, multiple acute, of uncertain origin (Guillain-Barré syndrome), 363
Neustadt, Adolph, and Weiner, S. B., 752
News and notes, 135, 275, 414, 557, 694, 836
Niemann-Pick's disease (*see* Lipoidosis)
Noyes, Harold J., 118
Nursery, adoption, aseptically conducted, midsummer respiratory infection in an, 304
Nutrition, adjustment of, dental caries as indication of, 118 (round table discussion)
newer diagnostic methods, 415 (book review)

O

Oils, substitutes for butter fat in infant feeding, 290
Omphalocele, congenital, 89
Otitis media, purulent, prevention of, in infants, 730

P

Paige, Beryl H., and Wright, F. H., 137
Pancreas, fibromatosis of, congenital familial steatorrhea with, and bronchiolectasis, 462
Panel discussion, thymus gland, 534
Parathyroidism, physiologic hypo-, relation of, to tetany in newborn infants, 1
Pectin-agar diet, in treatment of bacillary dysentery of infants and children, 788
Pediatrics, American, future of, 810
practice of, teaching of body mechanics in, 832 (round table discussion)
school health problem and relation to, 385 (round table discussion)
Pelizaeus-Merzbacher type of cerebral sclerosis, 113
Pericarditis of unrecognized etiology, 112
Pertussis (*see* Whooping cough)
Phenylketonuria and congenitally deaf, 348
Physical strength of adolescent girls, 610
Pneumonia, pneumococcic, associated with measles, use of sulfapyridine in primary pneumococcic pneumonia and in, 417
primary, use of sulfapyridine in, and in pneumococcic pneumonia associated with measles, 417
saw-tooth form, 517
staphylococcus, clinical, pathologic and bacteriologic study of, 712
